#### PRESIDENT'S REPORT

The decline in earnings per share from 32.2¢ earned in 1974 to 28.6¢ earned in 1975 was attributable to a decrease in sales of \$123,000. An increase in royalty income of \$20,800 and a decrease in interest expense of \$11,300 to an appreciable extent offset an increase in selling and administrative expenses.

However, the Company did improve its working capital position by \$112,300 in 1975 compared to \$98,000 in 1974 and consequently it is in a strong liquid financial position.

In September of 1975 the Company entered into a licensing agreement with W. R. Grace & Company of New York pursuant to which we will have the exclusive right to manufacture and sell in Canada, ladies' wearing apparel utilizing the designs and fabrics of Jones New York.

It is anticipated that this association with Jones New York will result in increased revenue and a considerable savings in design costs.

Thank you for the confidence that you have shown in the Company.

On Behalf of the Board of Directors

DAVID WEISER

# Notes to the Consolidated Financial Statements October 31, 1975

## 1. Accounting policies

Principles of consolidation:

The consolidated financial statements include the accounts of all subsidiary companies. These are:

Rotex Limited

-100 % owned

Jack Winter Sportswear Limited - 100% owned

An exclusive option which expires on October 31, 1978 has been granted to Jack Winter, Inc. to purchase up to a 20% equity interest in Jack Winter Sportswear Limited. The purchase price shall be determined by mutual agreement at the time of exercise of this option.

All inter-company loans and transactions have been eliminated on consolidation.

#### Inventories:

Inventories are valued at the lower of cost and net realizable value.

#### Fixed assets:

Fixed assets are valued at cost. Depreciation of equipment and furniture is provided using the diminishing balance method at the annual rate of 20%. Leasehold improvements are amortized over the term of each lease and one renewal period.

Excess of cost of subsidiary over net book value of assets acquired:

The excess of cost of subsidiary over net book value of assets acquired is carried on the accounts at cost without amortization.

#### Income taxes:

Income taxes are based on accounting income rather than on taxable income. Differences, primarily relating to depreciation, are reflected in different time periods for financial accounting purposes rather than for tax purposes and give rise to deferred income taxes.
